Two stabilizing feet are recommended below each monitor mount.
Stabilizing Foot

Frame A

Adjustable Foot

Stabilizing Foot

Socket

1. Slide the socket of the stabilizing foot over the front adustable foot of the frame.

2. Slide the stabilizing foot back and slide the same socket over the back adjustable foot.

3. Slide the stabilizing foot foward.

Back Straps for Single-Sided Graffiti Displays

Back straps are required for single-sided Graffiti displays with monitor mounts.
30inch Graffiti displays with monitor mounts require a back graphic instead of straps.
Grommet

Strap
Bottom Hub

Top Hub

1. Hook one grommet over the silver nub on the bottom hub.
2. Stretching the strap taut, hook the second grommet over the silver nub in the top hub.

Monitor Bracket Assembly

up

down

Monitor
Bracket Plate

Wing Knobs
(Bottom two holes)

1. Attach the monitor bracket plate to the two vertical pieces with four wing knobs.
The wing knobs will go through the bottom two mounting holes in the vertical pieces
Note the up and down arrows on the vertical pieces.

Faces
Display
Front
2. To hang the monitor bracket plate onto the frame, slide the upper u-channels over the top cross member of the frame.

Slide it down so the lower u-channels will rest on the cross members below.
3. Attach the smaller monitor bracket back plate onto the monitor bracket plate as seen above using the provided screws and wing-nuts.

Note: The back plate can be mounted anywhere along the plate to align with the cutout in the graphic.

4. Attach the X-shaped monitor mount to the television using the appropriate screws for the television. The bracket is compatible with VESA 75 (inner mounting holes) and VESA 100 (outer mounting holes).
5. Install the graphic - See graphic installation instructions.

6. Hang the monitor onto the monitor bracket as seen above. The monitor wires can be passed through the cutout in the frame.

Graphic Installation Instructions

⚠ Caution! Installing silicone-edged graphics is techniqe sensitive; Practice will shorten installation time.

⚠ Handle graphics with care with clean hands in a clean environment. Clean cloth or latex gloves are recommended.

Stitched edge goes in first
**SEG groove**
Start in the corner

How to Install SEG Graphics:
Turn and tuck the side of the graphic with the silicone welt into the SEG groove.
The stitched ege goes into the groove first.

INCORRECT

Pull
Silicone Bulge
Press While Sliding Hand
Pulling on the silicone welt during installation stretches the silicone and creates a bulge in the silicone welt that is difficult to correct smoothly.

CORRECT

Tuck   **Tuck**   **Tuck**

A series of tucks reduces excess silicone.

Installing Fabric Graphics with Endcaps
