

Reveal Table Top Banner Stand Assembly Instructions

Remove bungeed pole from back of banner stand base.

Swivel Foot 90 degrees.

Extend bungeed pole and insert into hole in base. See notes below about the using the bungeed pole with the two different table top heights.

Using your foot or your hand hold down the base and slowly pull graphic up.

Hook the top bar onto the pole.

31" Tall Banner Stand

For the lowest height, use only one pole section. The upper two pole sections can be stored in the triangle shape (highlighted in orange to the right).

56" Tall Banner Stand

For the standard table top height, use only two pole sections. The upper pole section folds down and hangs (highlighted in orange to the right).

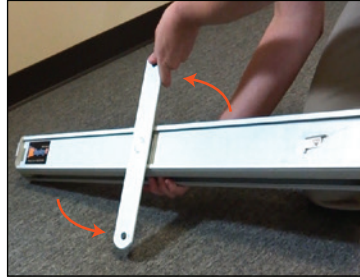

83.5" Tall Banner Stand

See the following page.

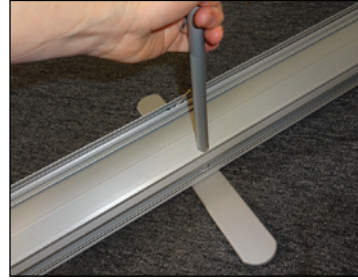

Reveal Full-Height Banner Stand Assembly Instructions

Remove bungied pole from back of banner stand base.

Swivel Foot 90 degrees.

Extend bungied pole and insert into hole in base.

Lean banner back to hook top bar onto pole

Reveal Banner Stand Wall Assembly (Using Optional Connector Pins)

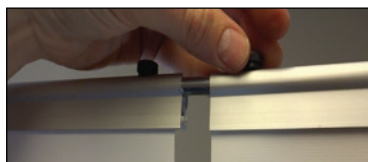

Loosen knobs on connector pin(s).

Align banner stands.

Slide connector all the way into circular slot top bar of 1st banner.

Slide connector into 2nd banner. Tighten both knobs. Repeat with additional banners to make a wall.

Note: There will be an approximate 1.25" gap between banner stands.
